A true copy, attest : ELDRIDGE BURDEN, je 13 4t THE CHAMPION. Washing Machine, PATENTED BY J. R. TURBILL, JULY 12TH, 1861.

THIS is one of the best Labor-Saving Machines now in use, both for the spiness. Durability and simplicity. It saves Labor, saves Soap, saves Fue!

This muchine is so arranged that it keeps all the hot steam and smell of the sads from rising up in the face, and makes no slop on the floor. It is the lightest and most convenient machine to handle manufactured, and at the same time is less liable to get out of order or break.

Every lady would slo well to try the Champion before purchasing any other, as we know it to be without a competitor in all the requisites of a practicable, reliable Washing Machine.

No Washing Machine ever invented or introduced in the State of Missouri, has met with such universal success and favor.

What is more encouraging to the proprietor is, that the demand is greatest where it is best known, and it stands to-day where it has ever stood, without a rival, both in the States of Missouri and Illinois.

be excelled.

It possesses all the superior qualities of Keronene and Burning Fluid, with none of their defects.

It burns beautifully in the common Fluid tube lamp, and far better than Kerescue lamp, with the simple adoption of MARCY'S PATENT UNION HINGE BURNER, which is the most perfect burner in use. There is, therefore, no necessity for changing lamps.

It is a cheap substitute for Keroscue and Fluid, and its perfect safety will recommend it to an intelligent audilic.

FURNITURE.

To be Observed in the Use of the Percoline Oil.
Marcy's Patent Hinge Burner should be used when practicable. In all cases the wick should be large chough to fill the burner, if smaller, the fire may get into the lamp. It will not, however, tind its way there more readily than in the ordinary Kerneses.
